

## **FY 2019 JEPIC Seminar in Myanmar on "Grid Connected Solar Home System in Japan"**

JEPIC has been conducting bilateral seminar programs with electric utilities in ASEAN countries with strong support from electric power companies in Japan. The purpose of the program is to strengthen the business infrastructure of the electric utilities in ASEAN countries, such as basic and expertise technologies, management and human resources development.

JEPIC and Ministry of Electricity and Energy ("MOEE") launched their bilateral cooperation programs in 2005. Since the initiation, JEPIC and MOEE have held seminars every year in Japan as well as in Myanmar.

In cooperation with Kyushu Electric Power Company, Inc. and Shikoku Electric Power Company, Inc., JEPIC and MOEE held the 15th Seminar in Myanmar in November 2019 as below;

Date of the Seminar	: November 18 <sup>th</sup> to 20 <sup>th</sup> , 2019
Seminar Place	: Nay Pyi Taw, Myanmar
Theme of the Seminar	: "Grid Connected Solar Home System in Japan"
Participants	: 51 participants from MOEE
Mission Members	: 2 experts from Kyushu Electric Power Company, Inc. 2 experts from Shikoku Electric Power Company, Inc. 3 secretaries from JEPIC (including head of delegation)

51 MOEE participants attended the Seminar. After the presentation, we had a fruitful discussion and shared opinions.
